

## **“Human Rights Promotion in Seychelles” Project Launch (funded by the EU)**

On the 8th October 2021, the SHRC hosted the launching of the "Human Rights Promotion in Seychelles" project. As per its Act, the SHRC is mandated to promote and protect human rights in Seychelles and as such, the project will complement the programmes of the Commission. Additionally, it also includes the setting up of a Human Rights Information and Legal Centre. Through the same, the SHRC will collaborate with legal professionals and law students to provide information on the mechanisms available to those who feel that their human rights are being violated. The project has been funded by the EU and will span for a period of three years.
